Year Completed: 2006

Responsibilities: Project Manager, Wetland
Delineation, Mitigation Plans , Joint Permit
Preparation and Revision

Perform a wetland delineation of the proposed extension of Wilson Avenue. Within the project boundary, 2.4 acres of wetland were delineated. To mitigate for the proposed impacts the plan called for enhancement of 1.52 acres of the existing wetland by converting it from a trash filled, invasive species dominated area to a more attractive wetland with diverse, native vegetation.
